<b>Total Disbursements:</b>	<b>\$10,710.00</b>

### COMPANIES WHICH DONATE TO P.P.

December 3, 2014— Washington, D.C.

Chevron, one of the world's largest oil companies, has donated \$26,000 to Planned Parenthood, one of the world's largest abortion providers.

Where do you get your gas? Are you unknowingly supporting abortion when you make purchases or use services?

Companies such as American Express, AT&T, Avon, Black and Decker, Coca Cola, Pepsi, Ford, General Electric, Hewlett Packard, Johnson and Johnson (*I never would have imagined a company known for selling baby products would donate money to a corporation known for killing them!*) and the list goes on!

To see a complete listing of the company's who give YOUR money to Planned Parenthood, go to

[www.greatdebateusa.com/exposepp.php](http://www.greatdebateusa.com/exposepp.php) or scan this QR code with your smartphone.

# Abortion Pill Reversal

December 3, 2014—LifeNews.com

A protocol has already been developed for helping women who changed their minds about going through with a multi-day second-trimester abortion after it's been started. The process, which involves reversing a second trimester abortion by removing the laminaria can be used as long as the abortion practitioner has not yet done the lethal injection that destroys the life of the unborn baby.

Since the introduction of the dangerous RU486 (mifepristone) abortion drug, pro-life physicians have focused on coming up with a method of reversing this abortion pill process if a mother decides immediately after taking it that she wants her baby.

Now, pregnancy centers that help women find abortion alternatives are also helping women who change their minds immediately after taking the abortion pill (RU486).

On November 17, 2014, the pro-life Women's Choice Center of the Quad-Cities became the first pregnancy center in the Midwest to offer natural progesterone treatments to attempt to reverse RU486 abortions.

So far, with the use of this method, there have been 58 babies born alive and healthy to mothers treated with this natural progesterone after beginning the RU486 medical abortion. In addition, 106 women are expecting delivery of children they first tried to abort with RU486.

According to the Iowa Department of Health, nearly half (2,314) of 4,638 abortion recorded in Iowa in 2012 were abortions involving RU486. In an RU486 pill-based abortion, pregnant women are given two drugs and directed to take them three days apart. The

first, mifepristone, blocks the hormone progesterone from getting to the growing baby, starving it of the nutrients it needs to survive. The second drug, the ulcer pill misoprostol, triggers uterine contractions to expel the dead baby. Women eventually complete the abortion at home and deliver a dead baby. The hormone treatment protocol was developed by Dr. George Delgado, Medical Director of [Culture of Life Family Services](#). Dr. Delgado reports a 60% success rate in attempted abortion pill reversals **started within the first 72 hours after taking the first pill**. Dr. Delgado found that women who receive high doses of progesterone shortly after taking the first abortion pill can override the action of the progesterone blocker contained in the first pill, and save the pregnancy.

If you know someone who has taken the abortion pill RU486 and has changed their mind, call 877-558-0333 right NOW!

## PRO-LIFE ENTERTAINMENT

With Summer fast approaching and heat-infused days right around the corner, perhaps a list of pro-life movies we can enjoy while sipping a glass of iced tea with some popcorn would be in order.

**[Gimme Shelter](#)**, rated PG-13 starring Vanessa Hudgens and James Earl Jones is based on a true story of a teenage girl running away from her abusive mother who seeks refuge with the father she's never known, but he rejects her when he learns she is pregnant.

**[It's a Girl](#)**, not yet rated, is a documentary on the cultural traditions that surround widespread female gendercide and violence toward women in India and China.

**[Doonby](#)**, rated PG-13. Stranger Sam Doonby's arrival affects everyone in a little Texas town, especially as he seems to have a knack for preventing disasters. This brilliant parable has moments of levity, overwhelmed by an intense finale. Norma McCorvey ("Roe" of *Roe v. Wade*) has an important cameo role, trying to talk a young girl out of an abortion.

**[October Baby](#)**, rated PG-13. Stunned by the truth of her birth, Hannah sets out on a road trip with a band of misfits to discover her past and find hope for her future. This film is based partly on the true story of Gianna Jessen.

### CONTACT US!

We've changed our Newsletter layout to make reading it more enjoyable for you! Comments? Email [secretary@ysrtl.org](mailto:secretary@ysrtl.org). THANK YOU!

The 40-day campaign tracks Biblical history, where God used 40-day periods to transform individuals, communities ... and the entire world.

## WHY PRAY IN FRONT OF PLANNED PARENTHOOD?

February 24, 2015—40DaysForLife.com

One of the most common questions we get is: "Why do I have to go out to the abortion facility to pray for an end to abortion? Can't I pray at home? The Lord hears us wherever we pray."

That's true! We do need to pray as much as possible—wherever we are—for an end to abortion. But there are specific reasons why your prayers...and the visible sign of your witness when you pray at the place where the love of God is so desperately needed...are vitally important.

Showing up matters—that's why feeding the poor and conducting medical missions cannot be done from home. Where we take our prayers makes a difference—especially for the unborn who have no voice but yours. And for the women who may be pressured to abort, your physical presence at the place where life and death are decided in that very moment, is CRUCIAL.

Do not let your discomfort stand in the way of saving the life of a child and saving a frightened woman from a lifetime of torment and regret. The first week of our campaign, I was blessed with three encounters with young women who, while they were not there for an abortion, had their eyes opened to the truth about abortion and will most likely, as a result, choose life should they ever find themselves faced with an unplanned pregnancy.

### 40 DAYS FOR LIFE IN YUBA CITY?

## Yes!

The Yuba City Planned Parenthood dispenses the RU486 abortion pill and is responsible for bringing abortions back to our community.

Join us in front of the Planned Parenthood on Palora Avenue Monday through Friday until March 27th 9am-5pm.

Visit the 40 Days for Life website <https://40daysforlife.com/local-campaigns/yuba-city/> and sign up to pray for an end to abortion at the **Yuba City Planned Parenthood!**

### WANT TO GET INVOLVED?

Are you looking for a way to become more involved in the pro-life community but aren't sure where to start? Come to our meetings the first Wednesday of each month at 7pm in the St. Isidore Parish Hall located behind the Church and we'll get you started!

#### FAST FACTS

# 64%

Up to 64 percent of abortions involve feelings of being pressured to have an abortion, and other factors, such as rushed, deceptive, negligent or conflicted or profit-driven counseling, can also have a significant and often synergistic coercive effect. (Source: theunchoice.com)

# 40%

40% of all unintended pregnancies are aborted. (Source: Guttmacher Institute)
